EDUCATION

University of Toronto Scarborough

Toronto, ON

Candidate, Honours Bachelor of Science

September 2023 – Present

- **Specialist (Co-operative) Program in Computer Science - Software Engineering Stream**

WORK EXPERIENCE

Software Engineer Intern

Sep 2025 – Aug 2026

Wattpad

Toronto, ON

- Owned end-to-end delivery of user-facing epics, from authoring technical design documents through development, bug fixes, production rollout, and post-release monitoring
- Developed and launched redesign of the story landing page, a core content discovery experience for a platform serving **94+ million users worldwide**
- Migrated account settings and profile pages using React, Remix, TypeScript, and JavaScript, implementing server-side data loading, API integrations, and SEO metadata for a modernized frontend architecture
- Coordinated annual rollout of a multilingual global writing contest, validating eligibility and submission logic through extensive testing across backend, web, and mobile apps
- Integrated event tracking across multiple user workflows, enabling detailed product insights and data analytics
- Authored Jest unit tests, upgraded shared libraries, and refactored file structure for long-term maintainability
- Collaborated with product, design, data, localization, and QA teams to ensure reliable project launches

Software Engineer Intern

Jan 2025 – May 2025

Magna International

Newmarket, ON

- Led front-end development of an **AI-powered web app** supporting automotive engineering workflows and accelerating design stages for global teams
- Built full-stack engineering tools using React, Vue, and Python in collaboration with software integration engineers to process large, dynamic datasets
- Delivered intuitive, user-first UI/UX designs using Figma for seamless integration with CAD software

PROJECTS

Roomzi | *React, Express*

May 2025 – Jul 2025

- Developed a **full-stack rental platform** in a six-developer team with Supabase authentication and database
- Implemented CRUD functionality of listings, allowing landlords to seamlessly list and manage properties

Art Museum Collection Management System | *Java, XML*

Jul 2024 – Aug 2024

- Developed an Android app featuring Firebase-powered search, allowing users to store and retrieve information
- Designed a responsive mobile interface using XML in Android Studio Layout Editor

LEADERSHIP & INVOLVEMENT

Hack the Valley | *Marketing Coordinator*

May 2026 – Present

- Created branded marketing campaigns using Figma and Canva for audiences across the Greater Toronto Area

Rise Dance Company | *President*

Apr 2025 – Feb 2026

- Directed executive operations and managed finances for a 30+ member team, reducing event costs by **43%**

Association of Mathematical & Computer Science Students | *Design Director*

Sep 2024 – Apr 2025

- Designed promotional materials with Canva Pro, exceeding student participation goals for department-wide events
